

TONÍ COLLECTION

Take a seat, join us. And feel at home with the Toní family.

Here's the story

Why is it that while the sky seems to be the limit when it comes to our interiors, garden furniture is often so... well, boring? That's why Fatboy is proud to present the Toní family: the life and soul of every garden.

Rounded and colorful, they welcome you like the cartoon equivalents of garden furniture items. And with a clear nod to bistro furniture, they feel like old friends. Members of the Toní family are rock solid, corrosion-resistant and color-fast. What's more, there are more Tonís than there are Kardashians. So get to know them all and put together your very own Toní set.

Toní Chair and Armchair

Toní Chair and Armchair are at your service. Just the one, six of them, or however many you like. These one-piece chairs are rock solid. And thanks to their high-quality coating they are corrosion-resistant, color-fast and wind- and weather-proof too. Being fabricated from lightweight aluminum, Tonís can easily be stacked or slid into place. So let that barbecue, drinks, or whatever, begin. Toní garden chairs are up for anything, and everything.

Toní Chair Pillow

Toní Chair Pillow is the perfect way to complement your Toní garden stool. All Chair Pillows are water-, stain- and UV-resistant. So no worries about spilling anything. And thanks to an anti-slip layer, you won't have to worry about losing your grip either. Not even if it gets really late. Relax, Toní's got your back (and your bottom).

Toní Bistreau

Cool bistro chairs. But what can you serve that dinner for two on? On Toní Bistreau, of course. This lightweight aluminum bistro table will enable you to set up your own private restaurant. If the sun is shining, you can pop in a parasol. And when evening falls, simply plug the parasol hole to create a candleholder. Waiter, deux vins blancs, 's il vous plait!

Toní Bankski

How do you make a cool garden bench? You take a Toní Chair and stretch it till it's comfortable for two. Toní Bankski is the happiest garden bench ever. He will look equally at home in front of, at the back of, or at the side of your house, or in combination with a Toní Tavolo. So sit back and savor your Bankski moment. Guaranteed to make you happy.

Toní Bankski Pillow

Serious bench potato? After several hours on a Bankski Pillow you'll be as comfortable as the moment you first sat on it. This cushion perfectly complements your Bankski. And thanks to an anti-slip layer, it stays put too. Choose a Pillow color to match your Bankski, or go for the blue and white stripes and picture yourself on your own cruise ship.

Toní Tavolo

Ambience is the name of the game with Toní Tavolo. Up to six people can be seated around it: dining, enjoying drinks, playing cards a little too competitively, you name it. Combine it with a few Toní Chairs. Or a Bankski, which fits perfectly. Pure coincidence. Or perhaps not.

Toní Tablo

Think Toní Tablo, think big. Big dinners, big families, the biggest evenings. And it's as easily done as said; at 86.5 inches long, Tablo can accommodate eight Toní Chairs. And thanks to its parasol holder, you can have shade while the sun shines and candlelight well into the small hours.

Toní Candle Holder

A romantic dinner by candlelight? Fatboy has you covered. Insert Toní Candle Holder in Tablo's or Tavolo's parasol hole, book a string quartet or mariachi band and brace yourself for an unforgettable evening.

Toní Haute Bistreau

Toní Haute Bistreau is the height of elegance. To put your drinks on, or raise the level of the conversation. Haute Bistreau will turn your garden into a bar, whenever it suits you. High enough to stand at, and robust enough to prop you up. For as long as you like.

Toní Barfly

Toní Barfly raises the bar. This big brother of Toní Chair perfectly complements Haute Bistreau, for drinks or dinner that's a cut above the rest. Barfly always stands firmly on its feet, even when you are no longer able to. So take a seat and enjoy the view.

About the designer

Toní garden furniture was developed in collaboration with Erik Stehmann (from Arnhem, the Netherlands). Erik believes in creating innovative products that make the world more fun, preferring to use established techniques and materials in unusual ways. He gets his inspiration from just about anywhere: a weird sentence, for example, or frustration with a hideous product. Erik about Toní Chair: "I like that Toní is both new and recognizable. I see the chair as a friendly cartoon character. I would like to have dinner with him."

Nice to know!

- For indoor and outdoor use.
- Available in different colors.
- Material: aluminum.
