

## INSPIRING SPICES

Cinnamon, nutmeg, turmeric and ginger have long warmed our hearts and bellies in the fall. Now, these spices are presenting themselves in color form as bold pops to enrich an otherwise neutral palette.

These spicy hues come to life within the Amity Home line in a wide range of textiles. Plush cotton velvet displays depth and richness. A lustrous sateen conveys vibrancy and crispness. Prints and stripes mix these warm tones with complementary blues and mellow green in styles ranging from classic to modern.

This market, Amity Home is excited to introduce several more spice inspired hues in cozy knits, slubby textures and graphic embroidery.
