

Maxwood continues to diversify & expand across wood furniture categories!

Maxwood Furniture, a leading furniture manufacturer, is now a one-stop-shop for diverse quality wood furniture products. Since launching over 19 years ago, they have grown to manufacture several distinct brands & product lines, across a range of categories. Export direct customers can order existing designs or work with their US design team to create custom products & private collections. All precision engineered in their state of the art 1,300,000 square foot factory in Vietnam. Low minimums & mixed containers enable even smaller companies to order direct & save!

“Amazing value furniture for multiple rooms in the home and low MOQ’s combined with record low container rates, results in unprecedented value and flexibility for retailers when ordering container direct.” – Stephen Jensen, Maxwood President.

Following the successful launch of dining collections in 2022, Maxwood is now introducing new dining designs & finishes along with new products such as chairs, console & side tables. All will be on display at High Point Market along with the expanded Master Bedroom & Youth collections.

Maxwood also stocks diverse product offerings in their US warehouses fitted with the latest warehouse management system to maximize efficiency & ensure fast turnaround.

“As our business continues to rapidly grow & diversify, we acquired significant additional warehouse space to make new products more widely available to our network of partners. Over the last few years, we’ve expanded both our factory direct offerings & quick ship program.” – Anne Jensen, CMO
