The Waterfront Bowl features a circular base, unique undulating opening, & ruffled effect at the rim that resembles crashing ocean waves, this food-safe bowl makes a standout centerpiece.

With an understated silhouette & unique surface dimension, the stoneware Cloudcroft Collection is an appealing, calming place for the eye to land, whether you display indoors or outdoors.

Like a marbled stone vessel, the chip molded, mouth-blown, solid glass Color Theory Collection features mosaic-like shapes layered into the surface.

The Contrast Column features black & bone white stripes with an abstract herringbone pattern on top, these columns create a unique foundation to highlight statement vessels or decorative items.

Play with pattern & contrasting hues in the home with the ceramic Curvature Collection. These artful vessels create movement in home decor & act as art pieces for any room.

Bring unique sculptural style, texture, & dimension to home decor with the extra-large ceramic lambic Trough.

Playfulness meets elegance with these subtle, handcrafted, & hand-applied avocado halves on these unique vessels.

Bring neutral warmth & sophisticated dimensionality to large surfaces with the textured, painted terracotta Visionary Vase Collection.
