## ARTERIORS AND WORKSHOP/APD UNVEIL TRANSFORMATIVE FALL 2024 COLLECTION: A FUSION OF MATERIALITY AND MOVEMENT

*The esteemed architecture and design firm creates a 25-piece collection honoring transformation through materiality and movement.*

(Dallas, TX) September 12, 2024 – [Arteriors](#), a leading provider of luxury lighting, furniture, wall décor, and accessories, unveils its second collaboration with award-winning design and architecture firm [Workshop/APD](#). This highly anticipated **25-piece collection**, launching alongside the new 188-piece Arteriors Fall 2024 Collection, highlights seven distinct themes - Melt, Glaze, Stitch, Roll, Punch, Clasp, and Inset - each telling a unique story of craftsmanship and conceptual design, influenced by acts of making and transformation, from technological advances and time-honored techniques to wear by time and weather.

### Workshop/APD for Arteriors

Building on the success of their first partnership, Workshop/APD, helmed by founding principals **Andrew Kotchen** and **Matthew Berman**, infused this second collaboration with a dynamic sense of movement, where materials are artfully manipulated into captivating forms and textures. The collection includes lighting, wall decor, accessories, and – unlike the first collection – expands into furniture, showcasing a harmonious blend of mixed materials from hand-stitched leather to molten glass.

**From Left to Right:** Glaze Large Sconce, Glaze Small Sconce, Glaze Pendant, Glaze Sculptural Sconce, Melt Entry Table, Inset Mirror, Melt Coffee Tables - Set of 2, Clasp Mirror, Melt Bookends - Set of 2, Melt Outdoor Console

The materiality of the collection is tied to its form, with each movement and shape guiding the transformation into unique structures. This design philosophy is embodied in Melt, the flagship concept of the collection, which explores seemingly molten forms in glass, wood, stone, and metal, evoking the interplay of ice and lava. Melt introduces these dynamic forms across lighting, furniture, and wall art, using materials like smoked wood, galaxy marble, and gesso-plated iron to enhance the transformative nature of each piece. The collection also introduces Punch, a minimalist approach to outdoor lighting with perforated curved steel cylinders that seamlessly integrate into exterior spaces, alongside expansions of the popular

Glaze and Roll lines and the newly introduced Clasp, Stitch, and Inset collections. Each piece reflects Workshop/APD's unwavering commitment to blending traditional craftsmanship with modern innovation.

"Our approach to this collection was deeply inspired by the transformative process—how simple acts like stitching, melting, or glazing can completely change the character of a material," said Berman. "The evolution from our first collaboration with Arteriors to this collection was inspiring and liberating, too, allowing us to explore design techniques that honor both tradition and modernity."

To bring warmth and humanity to the designs, the Workshop/APD team infused this sentiment throughout the collection. "As a firm, we're passionate about the spaces between. This applies to structures, spaces, and materials, but also to past and present, to varying disciplines, partners and collaborators, and so much more," said Workshop/APD associate principal Andrew Kline. "Collaborating with Arteriors allows us to work closely with artisans who can fully realize our visions and bring innovative concepts like these to life."

Barb Fuller, Vice President of Marketing at Arteriors, expressed, "Continued partnerships thrive on leveraging our history and uncovering innovative solutions to achieve even greater results. Our ongoing collaboration with Workshop/APD embodies this principle, reinforcing our brand's commitment to exceptional design through meaningful partnerships with trusted experts."

### **F24 Core Collection**

The Fall 2024 Collection exemplifies Arteriors' tradition of reinvention and commitment to distinctive design. Rooted in the brand's primary design muses - form, scale, style, material, texture, and palette - this collection pushes the boundaries of artistry while honoring traditional craftsmanship and storied techniques. Each piece is a testament to our dedication to transforming spaces, from inviting living areas to avant-garde social settings.

***From Left to Right: Gia Chandelier, Forney Coffee Table, Gola Lamp, Flagstaff Pendant***

The collection showcases a diverse range of inspirations, such as the terrestrial icicles captured in the Gia Chandelier and the celestial beauty of the Helios Chandelier. Arteriors continues to be champions of sustainable design, incorporating materials like eggshells in the Forney Coffee Table and Hesner Candleholders, and coconut in the Bilal Flush Mount, a fresh take on the previous season's Bilal Chandelier. This collection also brings fresh finishes including sparrow reactive seen on the Frontera Centerpiece and quail egg on the Gola Lamp, alongside new glass finishes like mocha coffee swirl glass in the Hadden Chandelier and ombre foggy glass in the Flagstaff Pendant.

Building on our successful Arteriors Outdoor debut in March 2024, the F24 Collection introduces 17 new outdoor pieces, spanning dining, lounge, lighting, and planter options. These additions reflect Arteriors' innovative approach to seamlessly blending indoor and outdoor living, offering unique solutions to enhance any space.

The Workshop/APD for Arteriors and F24 Collections debut on September 12, 2024. All will be available on [arteriorshome.com](https://arteriorshome.com) and in Arteriors' three U.S. showrooms: New York, Dallas, and the brand-new Los Angeles location located in the heart of West Hollywood's design district. The collection will be displayed at Fall 2024 High Point Market (October 26 - 30) at the Arteriors showroom in the C&D Building. For more information, visit [arteriorshome.com](https://arteriorshome.com).

#### **About Arteriors**

Founded in 1987, Arteriors is a Dallas-based company that specializes in luxury lighting, furniture, wall décor, and accessories. The company works with experienced artisans and makers around the world producing a full spectrum of styles in luxury materials and finishes. Arteriors is known for collaborating with leading interior designers in its guest designer program to create inspired lines with fresh perspectives. In addition to residential design, the company offers a range of customizable contract offerings. The brand is a member of the Sustainable Furnishings Council and has recently joined Mindclick, a sustainability solutions company that rates the environmental health performance of manufacturers and their products, to elevate their mission of creating environmentally friendly products and manufacturing processes. Arteriors has trade-only showrooms in Las Vegas, Dallas, New York City, Atlanta, Chicago, High Point, N.C., and stores in Los Angeles in West Hollywood's Design District, Dallas, Texas in the Dallas Design District, and London in the Design Center at Chelsea Harbour.
