

FOR IMMEDIATE RELEASE

GoodVibeSleep and Pillow Cube Join Forces to Launch the Ultimate Comfort Combo

High Point, NC – October 21st, 2024 – GoodVibeSleep, the exclusive adjustable base and mattress brand from Legends Home, is excited to announce an innovative new collaboration with Pillow Cube. Together, they are introducing a groundbreaking sleep collaboration that pairs GoodVibeSleep's adjustable bed base with haptic feedback technology and Pillow Cube's premium side-sleeping mattresses and pillows, offering a life-changing comfort experience.

Pillow Cube broke the internet in 2019 when it introduced its game-changing cube-shaped pillows, designed specifically for side sleepers. Since then, the brand's videos have garnered tens of millions of views, becoming a sensation and disruptor in the sleep industry.

GoodVibeSleep launched its innovative adjustable bed base earlier this year, designed to elevate comfort with synchronized sonic vibrations and personalized playlists.

The combination of GoodVibeSleep's bed bases, Pillow Cube's pillows (Side Cube™ and Ice Cube™), and Pillow Cube's side-sleeper mattresses (made in the USA by Legends Home) provides the ultimate sleep solution for wellness-conscious customers.

"This partnership with Pillow Cube represents an exciting new chapter for GoodVibeSleep," said Chris Dockter, CEO of Legends Home. "The addition of Pillow Cube's innovative products, viral marketing, and brand power take our offering to the next level. When you experience this collaboration, it sells itself."

Attendees of the High Point Market can experience the GoodVibeSleep and Pillow Cube collaboration at Legends Home's showroom, Plaza Suites #308.
