## Aviva Stanoff

### *Partners with Currey & Company on New Collection*

Known for her textiles and made-to-order luxury products, Aviva Stanoff is really a wild earth princess. She grew up in a remote area of Northern California amongst the redwoods and Mother Nature. This childhood experience developed a deep respect for the beauty of the natural world with all its imperfections. After graduating from the Academy of Art in San Francisco with an MFA in Applied Textile Design, Ms Stanoff spent 15 years working in New York with the fashion and design industry. Based now in California, Aviva's luxury designs are sold at ABC HOME, Neiman Marcus, Barney's and many more. Aviva Stanoff will join Currey & Company to create an exciting collection of lighting which debuts in late 2015 and early 2016.

Aviva shares: "I am absolutely delighted to partner with Currey & Company. Already with an amazing collection of products and a superb reputation for quality and innovation, it is a gift that they have invited me to celebrate an artisanal perspective with them. We are currently working on a Modern Luxe Collection looking at themes such as 'Elevate & Illuminate'—lighting concepts to include hand work in textiles, found minerals, and organic textures."

*Aviva Stanoff designs can be seen in High Point at Interhall-IHFC Booth 601 or meet the artist in the Currey showroom on Monday, April 20 from 3 to 5 PM!*
