For Immediate Release

## MORE VOGUE VINTAGE LIGHTING FROM LUCAS + MCKEARN

Lucas + McKearn are proud to announce the release of their latest supplement catalogue, which includes 25 new products from their UK brand, Elstead Lighting. These products expand on the interior ranges currently offered by Lucas + McKearn, as well as increasing the amount of beautifully hand-crafted outdoor brass lanterns.

The new Douille range featured is a modern take on traditional industrial fittings, with its ribbed castings, twisted flex and arched metal arms. It is ideally suited for Edison style LED filament bulbs and each lamp holder has a metal shade ring to allow customization with glass or metal shades. The range includes a beautiful ribbed glass shade as an optional extra to really bring the vintage appeal home.

In finish options of Aged Brass or Polished Nickel, the range includes a five light chandelier, wall sconce, table lamp and single pendant – ideal for building up into multiple installations. The sconce and pendant comes with long lengths of twisted flex for use in a great variety of applications. These products are ideal for bars and restaurants, industrial converted properties, or even homes where you want to show a bit of vintage style. The Douille sconces or pendants would make a unique and quirky take on bedside lighting.

These new products will be featured at the High Point Market, 14-18 October on the Lucas + McKearn Booth #G-7059, and can also be viewed at our brand new showroom in Baton Rouge, Louisiana, from September 2017. For more information please see our website: [www.lucasmckearn.com](http://www.lucasmckearn.com)
