“The Organic Cotton Covers are 100% organic cotton — through and through. . And we line our stretch knit Organic Cotton Mattress Cover with a layer of wool that serves as a natural FR solution. No chemical flame retardants needed to meet safety regulations. And wool naturally enhances breathability and absorbs moisture” says Mike Rush, CEO. “Latex has natural elasticity that ensures correct position of the spine in every sleeping position. It prevents or eliminates pain where pressure can occur, like shoulders, hips, and the back. It has excellent temperature and moisture regulating properties – not too hot, not too cold – with healthy air circulation. The natural latex we use is an ecologically friendly, natural product that is sustainable and renewable. It offers long-lasting comfort, excellent durability, and is noiseless so you can sleep without creaking, squeaking or spring-like noises.

The company utilizes proprietary manufacturing methods to produce it’s line of mattresses. Private labels are available and specs can be customized to individual needs. The full line can be viewed in the Rush Mattress High Point Showroom at 118 N. Wrenn St., High Point, NC
