CR Laine—Fall 2017 Trend Report

COLOR BREAKS FREE : NO RULES APPLY

CR Laine pairs a variety of fabrics and finishes together this Fall for a refreshing mix of traditional and modern designs. Warm wood tones are juxtaposed with polished metals and surrounded by fabrics that range from rich leather to plush velvet in combined shades of raspberry, papaya orange, lemongrass, and indigo blue. *Vogue* has declared color as one of the year's watchwords and we couldn't agree more. A burst of color is all it takes to reignite your interior. And remember: nothing is off limits.

CR Laine—Fall 2017 Trend Report

CALMING NEUTRALS

Bold colors take a back seat to a clean, modern aesthetic that features gentle shades of gray, black and white. The 19th-century designer William Morris advised, “Have nothing in your house that you do not know to be useful, or believe to be beautiful.” Even in the most modern suites, that sweet sentiment still holds true. A home should be your own private oasis, and your rooms should nourish your soul. Like safe ports in a color storm, neutral sofas and chairs allow limitless experimentation with the season’s most popular accent colors.

CR Laine Furniture—Company Background

History: Established in 1958, CR Laine Furniture had humble beginnings. With three part-time employees and their founder/owner, C.E. Roseman, Sr., they produced small numbers of goose neck rockers. Since that time, CR Laine has grown into a full service upholstered furniture manufacturer producing the best in customized, bench-crafted upholstery. They utilize new processes and equipment, but will always hold true to world-friendly, time-tested premium construction features such as:

- Frames made from sustainably harvested hardwoods
- Water-based wood adhesive with no VOC (volatile organic compounds) emissions
- Eight-way hand-tied coil springs made from approximately 50% recycled metal
- Seat deck and trim pad made from 80% regenerated fibers
- Foam padding and foam seat cushion core made from at least 10% natural soy-based

Location: Manufacturing facilities and corporate offices are located in the foothills of North Carolina's Appalachian Mountains, in the city of Hickory. CR Laine's High Point showroom is located at 310 N Hamilton Court on the second floor in space 204.

Leadership: CR Laine has a proud history as a successful family owned and operated upholstery manufacturer. C.E. "Sonny" Roseman, Jr. is CEO and third generation family member, Warren Frye, is President.

Mission Statement: We create inspiring upholstered furniture through innovative STYLE. COMFORT. and COLOR.

Environmental Statement: CR Laine is committed to preserving the resources of our world for future generations. It is our goal to minimize the environmental impacts of our company through the continual improvement of waste reduction and use of sustainable practices.

Recycling: Throughout the organization, we recycle paper, plastic, aluminum, and cardboard. We encourage non-printed e-mail communication and conserve energy by switching off the lights in manufacturing during lunch as well as switching off all computers at the end of each day. Additionally, lumber scrap material is locally recycled/repurposed.

Sustainable by Design: In October 2008, CR Laine became the **first** company to achieve Sustainable by Design registration from the American Home Furnishings Alliance (AHFA). Additional information can be found on our website at www.crlaine.com

UPDATED STATISTICS

- Since first implementing the EFEC & SBD programs in 2008, we have saved over \$400,000.
- Energy usage has been decreased by 15% per employee, which is nearly a 26% decrease overall.
- Water conservation efforts have decreased our water usage by 45% per employee per month, which equates to over 13,000 gallons of water on average every month. We have replaced all of our toilets throughout the facility with new low-flow, high efficiency units, which save an additional 5 gallons per toilet, per flush.
- Since implementing the EFEC recycling program, CR Laine's saved over \$30,000 by redirecting fabric scraps, leftover cardboard, excess paper and plastic wrapping, and wood blocks from the waste stream. In the last five years, we have recycled 422,658 lbs. of scrap fabrics, 27,009 lbs. of cardboard, 15,000 lbs. of paper/plastic wrapping, and 3,259 cubic yards of wood blocks.
- By implementing a paperless scanning system and duplex printing office paper, over 300 trees have been saved by recycling paper with a local management company.
- 200 lbs. of aluminum cans and plastic bottles are recycled each quarter. That's more than 6,550 lbs. of cans and bottles recycled in the last 7 yrs. since becoming SBD registered.
- In 2014, we added a 42,000 sq ft addition to our plant. All of the trees that were cleared from the land were sent to a local sawmill to be used for timbers and the gravel from our old parking lot was sent to a local rock quarry to be ground up and repurposed.
