

The logo for HENN, featuring the word "HENN" in white, bold, uppercase letters centered within a solid red rectangular background.

Mondaí, SC, July 28th 2019.

H E N N

In the market since 1992, Henn is one of the largest furniture industries in Brazil, quickly serving more than 24,000 points of sale in the country and providing innovative and differentiated products at affordable and profitable prices. Currently, there are more than 1,000 direct and indirect employees who contribute daily to fulfill the dream of thousands of people.

Henn's intelligent workforce, infrastructure and logistics enable the industry to export to four continents and make it a benchmark in furniture manufacturing in the country. Proof of this is that, for over ten consecutive years, Henn has been one of the most remembered brands in the Top Mobile Award, an important recognition of the furniture sector in the country.

In addition, through an advanced system, Henn makes it possible to control a regulatory inventory of approximately 400 items, all for immediate delivery, for up to 30 days.

There are more than 800.000 square feet of built area and a modern factory park, with state-of-the-art machinery, which allows the manufacture of incredible furniture with agility, technology and, above all, with the way of every consumer.
