

# CREATIVE TOUCH X ANNA MARIA MANNARINO

**Creative Touch teams up with interior and event designer, Anna Maria Mannarino, for a rug collection that embodies her love for luxury and entertainment.**

## **Secaucus, New Jersey -**

Anna Maria Mannarino, of Mannarino Designs, and Baki Ildiz, of Creative Touch, join forces to debut a truly unique collection of Nepalese weave rugs. Composed of wool and silk to create a luxe finish, the designs are further enhanced with the use of hand-carving. The collection is hand-crafted in India.

The four piece collection will debut to the design industry at the Fall 2020 High Point Market. During and following market, Creative Touch will be accepting orders for standard sizes and custom options will also be available.

## **The Inspiration**

Mannarino and Ildiz carefully thought through every detail from the concept to production phase of the collaboration. Mannarino's goal was to create something bold, attractive, functional, and new to the market. She drew inspiration from her professional experience as an award-winning interior and event designer, but also from her experience as an accomplished jazz singer. Luxury, glamour, and exuberance are all important facets to each design. Shapes are reminiscent of art deco style, but the color choices were specifically made with today's modern interior in mind.

**WARNING: YOU  
MIGHT LOVE THIS**

## **About Creative Touch**

For over 15 years, Creative Touch has enchanted and thrilled the rug and design industry with their unique brand of breathtaking, one-of-a-kind rug collections. Creative Touch has established themselves as a leading manufacturer of hand-made rugs with styles ranging from traditional classics to current, yet timeless, contemporary works of art. Each piece is meticulously handcrafted and imported from countries such as Turkey, India, and Pakistan.
