FOR IMMEDIATE RELEASE

Sustainability at SUNPAN with a new Collection: DOMESTIC

Toronto, Canada, [July 29, 2020] – Now more than ever, the health of the world is a priority for us all.

At SUNPAN, making earth-friendly decisions is at the forefront of our product development and we want our business partners to be proud to work with us. Empowering buyers to make responsible purchases without sacrificing style or quality is important, and as a result, we are excited to introduce the [SUNPAN Sustainability Program](#).

Key initiatives in this program are:

- The launch of [Domestic by SUNPAN](#), a full range of upholstery made in North America. Domestic features streamlined designs that will offer comfort and style in contemporary, modern and transitional spaces. These earth-friendly designs are crafted with responsibly sourced materials including FSC Certified wood and performance fabrics made from recycled plastic water bottles. The stocked program is available to reserve now. Details on a special order program will be released soon.
- We have also enabled a [Sustainable filter](#) on our website so buyers can sort through our offering and make informed decisions

Other initiatives evolving through Sustainability at SUNPAN include:

- Sourcing energy efficient electronics where possible throughout our working environments
- Catalogues, flyers and additional printed materials are created using sustainably sourced paper
- Using recyclable packaging, produced with recycled materials

As our sustainability commitments develop, we encourage business partners to support an earth-friendly lifestyle by continuing to invest in our well-crafted pieces that will last a lifetime, acquiring designs made with responsibly sourced materials, participating in local recycling programs and donating used or old furniture.

We are eager to share this journey with our business partners in doing our part to support a thriving Earth.
