*We create the foundations of your home,
to inspire the stories of your life.*

For the past 25 years, we have been creating timeless furniture and accessories manufactured from quality materials. True to our values, we have maintained our goal to produce good design, distinguished by authenticity, simplicity and quality, as well as creativity and innovation. We rely on our unique expertise to create singular designs ready to embellish your daily life durably. We create collections for every room of the house: from the furniture that defines the purpose of a space to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the story of their lives.

All of our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be passed on from one home to the next, carrying over the stories of one lifetime into another.

BOK OUTDOOR DINING CHAIR

Designed by Alain van Havre

A signature Ethnicraft design, Alain van Havre's iconic Bok dining chair now makes its way into the open air! Bring structural elegance and contemporary craftsmanship to your outdoor lifestyle.

“The Bok collection is centred around organic wooden forms that bring us closer to nature. Curves and more natural lines that reflect our environment. Forms which are familiar to us.”

- Alain van Havre, designer.

BOK OUTDOOR DINING TABLE

Designed by Alain van Havre

Just like its matching chair, the Bok dining table is another signature design. Its airy shape yet rock solid construction make this piece a timeless and remarkable design to enjoy for all the years to come.

EX1 OUTDOOR DINING CHAIR

Designed by Alain van Havre

A popular interior favorite, the EX 1 dining chair is a timeless design, to add effortless stability to your outdoor seating needs.

CIRCLE OUTDOOR DINING TABLE

Designed by Alain van Havre

Our Circle dining table is all about inspiring your loved ones to spend a little more time at the table. Its solid legs intertwine in perfect balance, while the adapted grooved design makes outdoor life a simple pleasure.

MOCHA UPHOLSTERY FABRIC

OFF WHITE UPHOLSTERY FABRIC

JACK OUTDOOR SOFA

Designed by Jacques Deneef

Beautiful from every angle, luxuriant shapes and curves form the basis of the Jack sofa collection. Featuring upholstery woven in Belgium, every detail has been meticulously crafted to ensure comfort and elegance when enjoying the outdoors.

seating height: 40 cm - 16"

MOCHA
10255 265 × 90 × 73 cm
104" × 35" × 29"
seating height: 40 cm - 16"

JACK OUTDOOR RAINCOVER
19972 265 cm - 104"

HOW TO TAKE CARE OF OUR PRODUCTS

About natural materials

The beauty of natural materials lies in its peculiarities and imperfections. That is what separates true beauty from the artificial. Variations in wood grain and colour, knots, medullary rays and other natural characteristics are inherent in solid wood. These are far from flaws, but an intricate part of its character. Natural stone can have minor pitting or surface fissures. We believe that these imperfections contribute to the charm of Ethnicraft products.

Wood, like any other natural and porous material, continues to absorb and release humidity throughout its life. Although Ethnicraft designs furniture that adapts well to the hydrometric conditions of its environment, some cracking or movement may occur. Please do not be alarmed, this is a normal response to the furniture’s environment.

TIMELESS DESIGN

All our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be passed on from one home to the next, carrying over the stories of one lifetime into another. Our collections go back to the essence of what we believe is good design: pieces full of character, made from quality materials that age beautifully.

DEVOTION

We create collections for every room of the house: from the furniture that defines the purpose of a space to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the story of their life.

*We create the foundations
of your home, to inspire
the stories of your life.*

CRAFTSMANSHIP

Outstanding craftsmanship is at the core of our brand, and behind the simplicity of our pieces lies a constant drive for innovation.

Incorporating advanced techniques to our process of creation, each new design is revised and reworked to the last detail: every curve, texture and line reflects our design values.

HOW TO TAKE CARE OF OUR OUTDOOR PRODUCTS

Outdoor furniture

Ethnicraft's outdoor collection is designed to adapt well to a range of environmental conditions, whether that be on an urban terrace or beachfront patio; warm and tropical or cool and mountainous. As the furniture adapts to its environment, it is normal for some cracking and movement to occur.

The beauty of teak is that, even when left in its natural state, outdoors and in any season, it is basically maintenance-free. Our teak range comes without any finish or protective treatment. The wood is merely polished, allowing the natural oils to rise to the surface. The high density of teak wood means it is an excellent choice for outdoor use.

Overtime, it is natural for untreated furniture to grey slightly due to prolonged sun and rain exposure. This colour change is purely superficial and does not impact the strength or quality of the timber.

Due to the handcrafted nature of our products, each item will vary slightly. We consider this a sign of uniqueness and quality.

REGULAR CARE

Teak's high density has the advantage that stains do not penetrate the wood as easily. Even with these characteristics, any spills should be removed immediately.

Use placemats and/or coasters to prevent hot pots and pans, or cold glasses and bottles, from leaving marks on the furniture.

For regular wiping, use a dry cloth or soft brush for dusting off crumbs and leaves – do not rub. For cleaning, or in case of a spill, use a damp cloth and natural soap. Wipe in the direction of the grain. Do not use soap containing detergent or other chemicals. Dry with a soft clean cloth to prevent spotting.

With teak's natural oils rising to the surface, it can appear as irregular colouring or appear like a watermark. This is not a flaw, but a natural part of the timber's maturing. Use a damp cloth and natural soap to clean.

After any cleaning, ensure that furniture is dried thoroughly as spores that result in mould growth thrive in prolonged damp and dirty conditions.

Avoid letting water rest on any furniture surfaces for periods of time as permanent water damage can occur on wood, fabric or metal.

All teak items are equipped with glides to prevent water absorption from the ground. As well as preserving the furniture's feet, glides protect ground surfaces from scratches. Important! To prevent warping, before using a sofa with 5 or 6 legs, always adapt the adjustable glides of the middle legs to the ground surface. For stability, middle legs need to be slightly shorter.

Always ensure solutions used to clean paving, patios or terraces do not come into contact with the furniture, as it might leave permanent marks on surfaces. Some wood species contain tannin, which causes the wood to react with metal and leave permanent stains.

Avoid close exposure to heating sources such as outdoor fires, braziers and heaters.

THOROUGH CARE

To keep your Ethnicraft outdoor furniture in optimal condition we suggest fitting a custom rain cover during seasons where it is not in use or periods of bad weather.

Ensure the furniture is thoroughly clean and dry before applying the cover protection. For long periods of time we recommend that, if possible, any soft furnishings, cushions etc should be removed and stored indoors.

To remove stubborn stains or superficial scratches to teak surfaces, extra fine sandpaper can be gently used. Always sand in the direction of the wood grain.

RAIN COVERS

Custom-made to fit your Ethnicraft outdoor furniture and upholstery, our rain covers provide excellent protection against water, wind and frost. Protecting against dust, dirt, UV and harsh weather conditions, covers are breathable to prevent mould and mildew growth. Covers feature metal eyelets for fastening against high winds.

Produced in Europe and handmade using a PU-coated textile specifically developed to protect quality wooden furniture, providing a gentle shield to the surface it rests on. Covers are durable and lightweight to ensure easy fitting.

Before fitting, ensure furniture has been cleaned off and dry. Ensure any dirt or leaves have been dusted off surfaces to reduce the chance of mould growth. Any residue trapped on surfaces can cause mould.

Covers are easy care, machine washable up to 30°C/86°F, and fold down easily for storing. Air dry only, ensure cover is completely dry before storing.

For ongoing care, we recommend cleaning any debris off the cover regularly with a cloth, brush or hose

Outdoor upholstery & fabrics

Woven in Belgium, Ethnicraft outdoor fabrics are 100% polypropylene, a synthetic material. Polypropylene by its nature is water-repellent, stain-resistant, as well as resistant to mould, moths and bacteria like no other synthetic or natural fibre.

It is also:

- UV resistant.
- Resistant to the action of acids and alkalis.
- Hypoallergenic, with anti-odorant properties.
- Resistant to humidity and, although not completely waterproof, it does not absorb water and is quick-drying.
- Maintenance friendly - easily cleaned with clear water and a natural soap. Covers are machine washable up to 40°C/104°F. Do not use any chemical products not designed for polyester.
- 100% recyclable.

CUSHIONS

All sit cushions are equipped with an anti-slip fabric on the bottom to ensure cushions remain in the correct position.

The naturally occurring surface oil in teak can cause stains on cushions. To clean, use a damp white cloth, natural soap and clear water. Please note, natural oil transfer from wood to fabric is a recurring process that cannot be prevented.

All cushions are inserted with a long lasting, quick dry foam. This dries quickly after exposure to rain, ocean spray, melting snow, morning dew, or moisture and humidity which can penetrate even a "water repellent" outer shell over a period of time.

OUR COMMITMENT

Wood has always been the core material in the Ethnicraft range. We are deeply aware of the impact of our industry on the environment and we take environmental issues to heart: the origin of the wood, the energy we use in the production and distribution process, the treatment of the products and waste reduction – we try to be as environmentally friendly as possible.

In a world where trends change from one year to the next, we want to create design that will last for generations. Our timeless designs associate well with different styles, while our solid wood is strong and ages incredibly well with time. The ultimate noble and renewable material, all of our wood is sourced from responsibly and carefully managed forests.

NO WASTE

Production waste such as leftover logs, wood and sawdust are re-used for other purposes. The sawdust from logs is either used as fuel for the drying ovens or compressed as a base for pellets. All the leftovers from cutting planks to size are recycled and used as base material or as box joints for panels.

FSC® LABEL FOR OUR FURNITURE

Our commitment to the environment is reflected by the FSC® CoC (Chain of Custody) certification of our distribution centres. The FSC® label guarantees products come from forests that are managed so that they meet the social, economic, and ecological needs of present and future generations. In the case of Ethnicraft NV and Azur, the CoC certificate guarantees that the company is perfectly placed to buy, stock and sell products with a specified FSC® certificate, originating from sustainably managed forests, controlled sources and reclaimed materials, or a mixture of these.

The ultimate noble and renewable material, our wood is sourced from responsibly and carefully managed forests.

QUALITY CONTROL AND TESTING

Producing furniture and accessories at the highest quality, strength and safety is extremely important to us. To ensure this, we test all our products throughout the entire development process. We test on factors such as stability, durability, and safety for domestic use, to a level that meets or exceeds the highest furniture standards within the industry. Our internal protocols are based on the standards set by ANSI (American National Standards Institute) and BIFMA (North American Business and Institutional Furniture Manufacturers Association). Moreover, specific products within our collections are certified by independent external facilities in order to meet the European requirements for contract-grade use, along with specific requirements based around ecological and health regulations such as toxic substance use and flammability. Details on our testing can be found on our website and within our catalogues.

TEXTILE SOURCING AND SUSTAINABILITY

Our cushion covers, throws and rugs are crafted from the best weaving yarns which are primarily produced in Belgium, France, Italy, and Peru and Pakistan. By consciously choosing natural fibres – such as cotton, wool, and Belgian linen – we stay true to our values: design pieces full of character, made from quality materials that age beautifully.

Cushion inners are made in The Netherlands and are Oeko-Tex 100 certified. The Oeko-Tex label is an international standard that guarantees no harmful substances are contained within the final product. It certifies both natural and synthetic fibres. For the filling of our cushions, we have consciously opted for duck feather. As a natural product, duck feather far surpasses synthetic alternatives in terms of durability and sustainability. All cushion fillers carry the Downpass certification to guarantee high quality, ethical sourcing, and traceable supply chains.
