CR Laine - Spring 2019 Trend Report

NEO-TRADITIONAL : A NEW CLASSIC

This season, silhouettes remain minimal while incorporating the look of classic and traditional interiors with popular style. A mixture of eras, this “new traditional” design combines architectural furniture forms and contemporary elements with mid-century modern luxury. Updated styles reminiscent of traditional frames give fresh, new life to classic design. With this new edited style, detailing is essential. Elements like channels are carefully sewn one row at a time to ensure that they align perfectly when the upholsterer pulls them into place. Detailed stitching treatments, like our French Seam Rope Stitch, take the place of nail trim and contrast welt to highlight the clean, refined lines of a silhouette.

CR Laine - Spring 2019 Trend Report

COLOR CRUSH : DELFT BLUE & OCHRE YELLOW

Ahead of Fashion Week, *Pantone* decreed a marigold yellow called Aspen Gold as the yellow tone for the season, and *Glamour Magazine* followed by declaring golden yellows as “the biggest color trend for Spring”. In kind, CR Laine’s Spring collection features new fabrics in striking color palettes like ochre mustard with delft blue and charcoal gray. Layering multiple textures and patterns in high contrasts rather than a coordinated mix requires a skillful eye to curate exciting combinations that can be considered a new classic on modern frames.

CR Laine Furniture—Company Background

About: For 60 years, CR Laine has hand-crafted custom upholstery in Hickory, NC. We thoughtfully design and meticulously craft everything we build with a level of comfort that we can proudly stand by, and you can comfortably sit in for years to come. While we utilize new processes and equipment, we have held true to time-tested premium construction features, such as eight-way hand-tied springs. Color is the primary method of self-expression in your home. To that end, we curate an eclectic yet cohesive collection of textiles from artisans around the world. Our distinct blend of style, comfort, and color delivers a classic aesthetic with a modern perspective.

- Frames made from sustainably harvested hardwoods
- Water-based wood adhesive with no VOC (volatile organic compounds) emissions
- Eight-way hand-tied coil springs made from approximately 50% recycled metal
- Seat deck and trim pad made from 80% regenerated fibers
- Foam padding and foam seat cushion core made from at least 10% natural soy-based

Location: Manufacturing facilities and corporate offices are located in the foothills of North Carolina's Appalachian Mountains, in the city of Hickory. CR Laine's High Point showroom is located at 310 N Hamilton Court on the second floor in space 204.

Leadership: CR Laine has a proud history as a successful family owned and operated upholstery manufacturer. C.E. "Sonny" Roseman, Jr. is CEO and third generation family member, Warren Frye, is President.

Mission Statement: We create inspiring upholstered furniture through innovative STYLE. COMFORT. and COLOR.

Environmental Statement: CR Laine is committed to preserving the resources of our world for future generations. It is our goal to minimize the environmental impacts of our company through the continual improvement of waste reduction and use of sustainable practices.

Recycling: Throughout the organization, we recycle paper, plastic, aluminum, and cardboard. We encourage non-printed e-mail communication and conserve energy by switching off the lights in manufacturing during lunch as well as switching off all computers at the end of each day. Additionally, lumber scrap material is locally recycled/repurposed.

Sustainable by Design: In October 2008, CR Laine became the **first** company to achieve Sustainable by Design registration from the American Home Furnishings Alliance (AHFA). Additional information can be found on our website at www.crlaine.com

At CR Laine, we are committed to preserving natural resources. To that end, our frames are made from hardwoods harvested from the Appalachian mountain region of the USA. An analysis by the USDA found our supplier's intensive forestry management has provided the Appalachian mountain region with a consistent increase in hardwood growth for the past 50+ years. This means any CR Laine purchase has not and will not compromise the lumber needs of future generations.

We strive to minimize the environmental impacts of our facility through waste reduction and energy conservation. Additionally, we carefully track our use of wood, foam, fabric, water, paper, batteries and aluminum to minimize waste and to maximize our recycling.

We use Flame Retardant Free cushions, foam, and decking that has been tested and approved by CertiPUR-US[®] to meet standards for content, emissions, and durability to ensure consumer safety and environmental stewardship.
