## Paragon to debut the Angela Harris Collection at High Point

Paragon is excited to announce the new Angela Harris Collection at the High Point Market in June.

“We are delighted to have a designer of Angela’s caliber and talent on board,” said Malanta Glassco-Knowles, Vice President of Design and Marketing. “Her innovative designs have translated into cutting-edge contemporary art that adds to the depth of the Paragon line.”

Harris has over 20 years’ experience in forecasting market trends and designing award-winning interiors. Her firm has been recognized nationally with more than 90 design awards, including Top 100 Giants by Interior Design magazine and is annually climbing the Inc. 5000 fastest growing list.

The knowledge gained as CEO and Principal of her renowned interior architecture firm, TRIO, allows Harris to work directly with the nation’s most prominent builders, developers, product designers and merchandisers.

“We are thrilled to partner with Paragon to bring an art line to market,” said Angela Harris, CEO and Principal of TRIO. “My designs are authentic and beautiful, but attainable and retail ready. We believe that everyone deserves great design and everyone can Live Beautifully.”

Harris’s experience coupled with a Masters in Sustainable Design drive her expertise in knowing what consumers want now and in the future. Her style is described as elegant, modern, soulful, kinetic, sophisticated, yet free-spirited.
