

## COMMITTED TO COLOR

Amity Home layers bold colors and soft hues into a line steeped in natural neutrals, touchable textures and easy to care for materials.

Green, the current non-neutral neutral, is still picking up steam in all areas of design and Amity Home is adding several more collections in this earthy hue. From bold stripes in rich Kale to soft linens in Laurel these new introductions will layer into current collections with ease while adding a fresh new flavor.

Amity Home takes gold beyond metals in lustrous viscose and comfy cotton velvet. Paired with high contrast collections in ivory and asphalt, this rich hue makes a bold statement as accent or base.

Blues from Limestone to Indigo always offer a calming color to any bedroom. Mixing Indigo with Ochre and Kale in a dramatically scaled stripe Amity Home creates an eclectic set.

With color edging out more of yesterday's greys, Amity Home is excited to introduce these and several new hues at the upcoming High Point market.
