

# Baker Interiors Group Debuts Spring 2023 Introductions, Featuring New Baker Luxe, Baker Originals Lighting, and Bespoke in Motion Home Theater Seating Collections

*Baker's Latest Designs Capture Bold Elegance with Fresh Finishes and Luxury Furnishings for Contemporary Living*

CONNELLY SPRINGS, NC (Spring 2023) – Baker Interiors Group is delighted to debut its Spring 2023 introductions, encompassing 65 pieces across three collections: Baker Luxe, Baker Originals Lighting, and Bespoke in Motion Home Theater Seating. The new pieces embody Baker's legacy of timeless elegance and effortless luxury. The introductions include a variety of designs such as bedroom, dining, lighting, mirrors, upholstery, and—debuting for the first time—home theater seating, among others.

"We are thrilled to debut the new Spring 2023 introductions, a glamorous collection that harks back to the brand's rich legacy of expert handcraftsmanship while presenting some of our most imaginative designs to-date," shares Erica Wingo, Senior Vice President of Merchandising and Marketing at Baker Interiors Group. "The Baker Luxe collection draws inspiration from a variety of sources, ranging from 1970s-era fashion and jewelry to Champagne bubbles, and embodies Baker's deep-seated appreciation for historic design and modern luxury. The Baker Originals Lighting introductions showcase unmatched quality from our longtime partners in Murano, Italy; and the home theater seating is a first for us as a part of the Bespoke in Motion line."

## **Baker Luxe 2023**

A continuation of the successful Baker Luxe line, which was introduced in Spring 2020, the newest Baker Luxe pieces embrace glamour and the allure of feminine lines, inspired by jewelry-like detailing and fashion-forward silhouettes. With furnishings influenced by and named after Old Hollywood's most enduring icons—including Mae West and Marlo Thomas—the collection reignites the imagination with its striking yet quietly luxurious style, celebrating opulent finishes and materials ideal for elevating any space, from bedroom to dining and beyond. Highlights include:

- **Winter Solstice Mirror:** The Winter Solstice Mirror shimmers and shines like the bezel of a classic wristwatch. Its clear mirrored surface is surrounded by a frame made from nickel plated bronze.
- **Axton Credenza:** The Axton Credenza celebrates the simple beauty of geometric forms, like the boldness and beauty of a signature bracelet. It pairs quartered oak veneer with brass integrated hardware in a bronze finish.
- **Link Round Dining Table:** Inspired by the clasp and cuff detailing of luxury fashion and jewelry, the Link Round Dining Table is an oak and bronze piece with a remarkable silhouette. Its tabletop features a magnificent starburst pattern.
- **Collar Chair:** With intersecting lines and a bronze frame, the Collar Chair represents a bold convergence of shaping and material. The piece features a finely upholstered seat and back.
- **Boutique Cocktail Table:** Designed with a bronze frame and a cast Murano glass top and end panels, the Boutique Cocktail Table takes inspiration from the furniture styling of luxury fashion boutiques.
- **Prosecco Table:** Elegant and effervescent, the Prosecco Table has a lively look inspired by the floating bubbles inside a champagne glass. The table is crafted entirely in bronze.

- **Freeform Writing Table:** The Freeform Writing Table is amorphous and gently flowing, inspired by the unpredictable shaping of modernist art. A quartered oak veneer top hovers above legs cast with quartered oak grain.
- **Gala Bench:** The Gala Bench feels elevated and high-energy, with the spirit and verve of a runway gala. The bench features a modern take on traditional roll-arm design.

### **Baker Originals Lighting 2023**

An extension of the Baker Originals Lighting line, three new lighting pieces are debuting for Spring 2023. Inspired by the classic style produced by Murano in the 1970s, each is handcrafted in Murano glass, merging vintage and modern aesthetics to create never-before-seen fixtures suitable for luxurious settings.

- **Kingsley Chandelier:** Created by master glassmakers on the island of Murano, the Kingsley Chandelier features 333 clear glass elements engraved by hand. Its cylindrical suspension and bronze frame are punctuated by a repetition of glass called “stecche,” a technique invented in the 1970s and handed down through generations of craftspeople.
- **Disque Chandelier:** The Disque Chandelier is a stunning and substantial piece that interplays 11 lights and nearly 100 hand-blown Murano glass discs. Each disc is carefully finished with the battuto technique—a delicate, precise process with a grinding wheel that embellishes and fragments the glassy surface to mimic the reflections of a Venetian lagoon. No two pieces are exactly the same.
- **Disque Sconce:** Inspired by the classic design produced by Murano in the 1970s, the Disque Sconce merges vintage and modern to create a lighting piece that’s never been seen before. Each of the 14 glass discs is carefully finished with the battuto technique—a delicate, precise process with a grinding wheel that embellishes and fragments the surface to mimic the reflections of a Venetian lagoon.

### **Bespoke in Motion Home Theater Seating**

Ushering in a new generation of custom seating, the introduction of Baker’s Bespoke in Motion Home Theater Seating serves as a natural evolution of the Bespoke in Motion line—allowing clientele full seating customization, with the option to select every element from design, style, configurations, and size, drawn from an assortment of classic patterns. Clients may hand-select a variety of additional options including arm and leg style, drink holder options, back styles, cushion fill, finishes, power style, and more. All designs are built to uphold Baker’s highest standards of uncompromising quality.

The 2023 introductions of Baker Luxe, Baker Originals Lighting, and Bespoke in Motion Home Theater Seating debut at High Point Market (April 22-26) and will be available in Baker showrooms across the globe in Fall 2023.
