Oliver Gal has expanded its Florida facility to broaden fabrication and design capabilities.

09/13/2023

Oliver Gal will scale its Specialty division with the expanded facility.

Oliver Gal Artist Co., experts in luxury decorative wall art, has announced the expansion of its Florida-based production and fulfillment facility. Its new footprint allows the company to broaden its fabrication and design capabilities while scaling its new division, Oliver Gal Specialty.

The company's 2024 introductions are positioned to excite designers, full-line furniture retailers and contract partners with "unique and compelling products with enduring craftsmanship. A growing and diversifying customer base are what drove this investment," explains Ana Sanchez Gal, CEO and co-founder of [Oliver Gal](#).

At 30,000 square feet, the new facility is highly flexible and features state-of-the-art equipment. Also on site are a newly built Idea Lab and design studio. Together with its team of professional artisans, Oliver Gal Specialty and its line of embellished, American-made products are positioned for success.

"Everyone and everything at Oliver Gal Specialty are poised to assist designers and retailers in recognizing the potential of custom art curation and design," said Todd Skorupski, Oliver Gal's Sales and Art Director. "The difference, or the 'why' for Oliver Gal Specialty products is multi-faceted and built upon our advanced design and production capabilities for which we are now positioned to take even further."

For Fall of 2023, Oliver Gals' Specialty division will be at the High Point Market in IHFC C365. The brand's Spring-Summer 2024 collection will be unveiled including the artistry of the Oliver Gal chief creative, Lola Sanchez.
