BDI Expands Storage Offering with New Versatile Credenza Collections

Mesa and Ripple Credenzas Offer Abundant and Flexible Storage Solutions

CHANTILLY, Va. — Oct. 13, 2023 — **BDI**, a premiere furniture designer and manufacturer of office, bedroom, storage and entertainment solutions, has expanded its collection of storage solutions with the new **Mesa** and **Ripple** credenzas. Designed for those wanting to bring elegantly crafted storage to their spaces, Mesa and Ripple offer a wealth of versatile storage options ideal for entryways, dining, living room and bedroom spaces. Both credenzas will be shown at High Point in BDI's showroom, IHFC D724.

Designed by Jason Guidry, Mesa and Ripple feature sinuous carved doors which are in contrast with their rectilinear format. The beautifully textured doors are made possible through a molded construction process, bringing depth and tactile dimension to each cabinet.

Mesa's door-front design boasts a smoothly retro and angular pattern and the cabinet is available in a Moss Green or Stone Grey finish.

Ripple's door-front design artfully imitates the rippling waves along the shore and the cabinet is available in serene Ocean Blue or Stone Grey finishes. Both are available with either a brushed brass or brushed carbon base and door-pull accents.

Inside, both credenzas feature an expanse of options that allow for a customized storage solution:

- **Adjustable glass shelves** that rest on threaded inserts, allowing for endless readjustments

- **Utility / Storage Drawers** that can be positioned at the top or bottom of the cabinet, functioning as a storage drawer or serving tray. A removable felt drawer liner keeps contents secure.
- **Wire management** slots located in the upper and lower sections that allow wires to pass through for use with small electronics, or light media use.
- **Soft close doors** that allow contents inside to stay secure and unrattled

“BDI has been expanding its storage solutions for some time, but we also wanted a collection that was really at home in any space, and could provide ample storage for dinnerware, glassware, and other common household items,” said Matthew Weatherly, Associate Design Director at BDI. “Mesa and Ripple are equal parts statement piece and underrated storage solution, yet with the versatility and modern sophistication BDI is known for.”

Both credenzas measure 34”H x 79.5”W x 18”D and offer a four-door storage solution for any space. [Click Here for High Resolution Images of the Mesa Credenza and the Ripple Credenza.](#)
