Spring ushers in Fresh Designs and Products from New Moon

Luxury home decor company New Moon introduces new rug and pillow designs for the spring High Point Market

April 15, 2015 – New Moon brings full-force luxury to the spring High Point Market debuting seven new rug designs and an extended pillow collection. New Moon's wide-ranging catalog has an array of modern, traditional and eclectic designs, but this year's designs pinpoint the wow factor of intricate designs. The sophisticated composition of colors and layering of entangled lines create movement throughout each piece.

New rug designs are as follows:

- **Fiord, tide water**
- **Josephine, ivory/blue**
- **Papillon, amethyst**
- **Serpiente, deep blue**
- **Shale, ocean**
- **Tortoise Shell, charcoal**
- **Haze, bright teal (New coloration for the ombre style rug)**

New Moon will also introduce new styles and colorations to its inaugural pillow line. Last fall, the company debuted its first expansion line of home décor products after 30 years in the business.

The inaugural pillow designs are complements to New Moon's most iconic rug designs: Erika, Castile, Capistrano, Bali, and Haveli; along with new Mesa Collection designs. These styles have proven to be classic staples for interior designers, and the new pillows will make a simple addition to create a complete look that flows seamlessly throughout the space.

Market visitors are invited to explore New Moon latest additions at The Suites At Market Square, Booth G-2034.

About New Moon Rugs

New Moon has created a standard of quality for rugs internationally. Founder, artist and rug historian John Kurtz has over 30 years of experience. His family-owned company in Wilmington, DE produces carpets created through true Tibetan weaving. New Moon rugs can take pride in knowing that the company is committed to maintaining these standards, both for their carpets and the well being of their weavers.
