INNOVATIVE ADDITIONS

Design Home, in Pavilion 2, seeks boundary-pushing makers and bespoke inventories. First-time tenants include custom seating manufacturer Dowel Furniture and female-led digital disruptor 1429 Mfg, which transfers artist prints onto U.S.-made solid wood furniture. Also not to be missed is hand-painted wallcovering maker Vahallan, offering more than 400 customizable patterns, as it moves to a larger booth at Market.

Aviva Stanoff

A NATURAL DEBUT

Solid brass takes delicate shape in Aviva Stanoff's wall decor collection for Studio A Home, which makes its Las Vegas debut at Winter Market. The four-piece botanical series, featuring antique nickel-plated seeded eucalyptus and palm frond designs, adds to the fashion-turned-interior designer's home offerings. Preview the handcrafted collection and whet your appetite for its future offerings: Trays, decorative boxes and candleholders are all on the horizon.
